March 17, 2020

The Malish Corporation continues to monitor the impact of Coronavirus (COVID-19) and the risk that it poses to our customers, co-workers, and communities. Our #1 priority is maintaining the health and safety of our employees and colleagues while continuing to service our customers and doing our part to limit the spread of the coronavirus throughout the communities in which we operate.

We are constantly assessing the associated operational and supply chain risks and are taking appropriate actions to limit disruptions to our customers.

- All our manufacturing facilities (US, China and Poland) are currently open and operational.
- We are in close contact with our suppliers and have thus far been able to mitigate most risks by expediting freight.
- If a product you've ordered is impacted, our Customer Service team will advise you and share possible alternatives.

Additionally, we've implemented a variety of precautionary measures to ensure the health and safety of our co-workers including:

- Restricting visitors at Malish Corporation facilities.
- Restricting non-essential business travel by our co-workers.
- Implementing a remote work policy for employees in our sales team to reduce the risk of for our employees who are required to be in our US facility for production purposes.
- Implementing a Social Distancing practice within our facility to reduce risk of exposure for employees who will be continuing to work in the facility.
- Customer Service will continue to be present at our facility and service our customers.

Thank you for your continued support, we appreciate your business and your patience as we work through these unprecedented times. Due to the ever-changing nature of the situation, we will update our policy as necessary. If you have any questions, please feel free to contact a Malish Sales Representative or call our Customer Service Team at 1-800-321-7044 x2.

Sincerely,

Jeffrey J. Malish
President & CEO
